

Re-build Vanuatu Project

The container of supplies has reached the villages in the North of Efate, Vanuatu.

Please find photo of Paul & Nellie Simbolo family with some of the supplies.

I have added this photo to the new updated fundraising site www.rebuildvanuatu.good4global.com/

Many thanks to Viv Pike & Mary Ashton and the St John's Parish Community for making this possible...

The Simbolo Family live at Epule Tops above the main village of Epule. Please access link www.brunswickvalley.com.au/helpvanuatu/simbolofamily.htm to see more information and where the village is located. As they are further inland from the coast and river they will need more help to re establish and to supply running water to their village.

I will keep you updated with more photos as they come through of what is happening with the rebuild projects.
